

## Building Coordination Group

New EUWP vice chair **Ezilda Costanzo**, ENEA IT

Nomination last 7<sup>th</sup> May 2021 for 2021-2023

The building vice chair stirs the B. Coordination Group, to facilitate:

- create links between ongoing B. TCP R&I activities
- identify opportunities for better collaboration, in order to avoid overlaps and enclosed autonomous investigation
- exchange B. TCP management best practice

## Possible BCG issues for 2021-2023

- Bottom up approach to better inform the IEA on building R&I needs, policy, modeling, data
- Produce cross- TCP deliverables possibly contributing to - or inspired by - IEA publications or projects
- Close collaboration with other sectoral EUWP Coordination Groups (WS or other initiatives)
- Identify collaboration opportunities with other multilateral initiatives also out of the IEA R&I portfolio
